

Acute Cardiovascular  
Care Association

**Special fee for Greek residents at AcuteCVD 2020 (195€ instead of 635€ until December 19)**

## Acute Cardiovascular Care 2020 (7- 9 March) in Athens

**Get your name added to the programme**

**Submit your abstract or case**

(Deadline 11 October)

Dear Colleagues,

The next scientific congress of the Acute Cardiovascular Care Association of the European Society of Cardiology – **Acute Cardiovascular Care 2020** – will be held in **Athens, from 7 to 9 March 2020**.

Our programme encompasses the full spectrum of acute syndromes and covers the entire patient pathway from acute event until patient stabilization, requiring multi-disciplinary approach in diagnosis and treatment.

We believe that gathering the entire “heart team” in one place where they can interact together is the best way to learn from each other and join forces to better treat acutely ill cardiac patients

For that reason, we would be very pleased to count senior experts and young fellows from other specialties in our faculty and audience.

We would be delighted and very thankful if you would agree to promote our congress to your audience and encourage **abstracts and cases submission and participation** to that unique congress hosted for the first time by your country.

To help you in this task, please kindly relay the promotional material available at <https://app.box.com/s/9ni7rsesfl65efbdkof1ni192tgf0913>

Congress web link:

Thank you so much for your great collaboration to make this event a success

Best Regards,

Susanna Price, ACCA President  
Christian Hassager, ACCA President-Elect  
Maddalena Lettino, ACCA Past-President  
Sergio Leonardi, Congress Section Chair  
Konstantin Krychtiuk, Congress Section Co-chair
